

Our client is a full-service provider for the telecommunication sector and has over a million customers on the energy market, too. The company has a long history due to its high-quality services in the last years. Currently, the over 450 employees develop and implement innovative IT solutions for optimizing administrative processes of their customers. As a result of high engagement, encouraged creativity and profound knowledge the company will grow successfully in the future. Therefore, our client is looking for new fulltime developers in Chemnitz with a permanent contract.

C#/ ASP.NET – Frontend Developer – Energy (m/f/d)

Permanent – Fulltime – in Chemnitz

Your main tasks:

- Support of the specific department in the software development with C#.
- Conception and design preparation for new requirements.
- Realization of problem analyses, debugging and software tests.

Your profile:

- Successfully completed IT-technical studies or comparable vocational training in connection with corresponding practical experience in the field of software development with agile methods.
- Good skills and experiences in the following technologies:
 - C#, ASP.NET, SQL, WPF.
 - Oracle 9i/10g/11g RDBMS.
 - XML- and SOAP-technologies.
 - ideally PostgreSQL or MySQL.
- Functional and technical understanding of the whole software development process (including version control, issue management, continuous integration and unit testing).
- Specific competencies in the field of energy supply are desirable.
- Service oriented, proactive and motivated work attitude with a high-quality awareness.
- Proficient English skills (word and scripture).

Our clients offer:

- An interesting and fulfilling job in a dynamic and growing company.
- An unlimited employment contract with an attractive salary and flexible working hours.
- A modern and ergonomic workplace in the centre of Chemnitz (good public transport connection).
- Individual development opportunities and room for creative ideas.
- A friendly team as well as flat hierarchies and short decision paths.

Interested? Then we are looking forward to your meaningful and complete application, indicating your earliest starting date and your salary expectations or hourly rate.
